

# Comm 228/300 Permission to Register Form

Please attach SAPR and an unofficial copy of transcripts for transfer coursework. Comm 101 and College Algebra must be completed (i.e. have final grades) before permission can be given. A grade of 'C' or better is required in both Comm 101 and College Algebra.

## Important Notes

If math was taken outside of the state of Arizona, the UA Math Department evaluation is required before you can be released to register.

Permission to register for both Comm 228 and 300 is semester specific. If you've been given permission in past semesters or need to retake the course, you must submit a new release form.

Students with 75 or more units completed must submit a petition before permission to register for 228 will be given. You need to contact an academic advisor for the petition.

Only Pre-Communication majors can take Comm 228 and 300. Comm minors will not be given permission to register.

After permission to register is given, you need to register for the courses using WebReg. Being released to register does not guarantee a seat.

You may only take Comm 228 twice. Withdrawal from the course counts as an attempt.
